"Perfect-Pixs provides digital photographers with an easy and affordable way to calibrate their entire imaging workflow from capture to output.

The Perfect-Pixs system is the simplest and least expensive digital workflow calibration tool we've seen." Photo Review Australia

Perfect-Pixs Photo Suite Card Kit is our most complete set of reference cards available in one kit. Includes all of our most popular cards, our award winning 3 Card Kit and a 30 page manual on CD.

## Designed for Digital Photographers

Perfect-Pixs color rendition, gray zone, custom white balance and natural color cards are designed by an educator, photographer and master digital printmaker. Printed on a precise matte finish 1mm thick imageboard\* using archival inks, Perfect-Pixs cards will last for years without color fading or shifting.
